

## PROGRAMMABLE THERMOLEADER™

DRY BLOCK COOL AND HEAT BATHS  
-10°C to +100°C

### *Description:*

COOL-HOTTER DRY BATH incubator uses large screen with advance programmable microprocessor controller to control temperature and time. It is suitable for storage enzyme; ligation reaction; nick translation; warm incubator or any reaction need high to low programmable temperature.

### *Block Type:*

Variable blocks are available for 0.2; 0.5; 1.5; 2.0; 15; 50 cc; Microplate; Titerplate and any special request  
Block Dimension: 125 x 90 x 50 mm ( L x W x D )

### *Specification:*

<i>Temperature Range:</i>	<b>Modell -10/100</b> -10°C to +100°C
<i>Temperature Accuracy:</i>	+/- 0,2°C
<i>Dimensions: WxDxH</i>	200 x 295 x 160 mm
<i>Weight:</i>	11,2 kg (without block)
<i>Timer:</i>	0-9999 mins
<i>Main Power:</i>	230/110V
<i>Voltages:</i>	230V/50Hz. 110V/60Hz.
<i>Data Log:</i>	RS232
